**RE:** Engineer's Report Thru January 11, 2019

### FY 2017 CDBG – Development of the soccer field

A bid opening is scheduled for Wednesday, January 16, 2018.

### Liquid Fuels

We have authorized the inlet work to be done and expect the contractor to begin after the holidays.

We are working on completing the MS999 (final) for the Pothole project completed in December.

### CDBG

The CDBG applications for 2019 were delivered to the County on January 10, 2019.

### Chapter 94

The Borough's Chapter 94 report will be due in February 2019. Please be advised as the end of the year approaches it would be beneficial to begin collecting information on work that was completed during 2018. The code department would have this information. It includes permits issued for homeowner sanitary work (laterals, traps, etc.), any SSOs, any sump pump discharge rerouted, etc. We will reach out to the code department.

### MS4 Separate Storm Sewer Permit

Has the Borough adopted the PRP agreement? The new NPDES permit will not be issued until the PRP agreement has been signed and forwarded to the DEP.

Darby's annual contribution was estimated to be \$134,082. The Collaborative has discussed each town allocating 10% of the annual amount in 2018 with the successive years higher to make up the total required by year 5. There was a recalculation of the annual cost and Darby's cost share for 2019-2022 is \$16,710.73 per year. It is suggested that the Borough budget as much as

feasible, and \$16,710.73 as a minimum for MS4 compliance. The Stormwater Collaborative has invoiced the Borough for 2018.

#### Stormwater tip

Urban areas have more sidewalks, roads and parking lots. Many pollutants are left on these surfaces that often reach streams, creeks, rivers and oceans, adversely impacting the water quality.
